"I was very pleased with the images of my products, especially on the models. They were professional, friendly, and extremely well executed. I am looking forward to working with them further with my own personal line."

I would like to take the time to say that Pop N Shop Events is absolutely amazing. I found a sufficient & excellent catalogue of work they had done on their website and social media. They sponsored my NBA All Star Weekend 2016 "I Am Fashion Mixer" event completely with all their media photographers. I would absolutely recommend them to any event across any industry looking for coverage for events and more. *Alexander Harding,*

Having hired them once myself for an event, I found that they exceeded my expectations tenfold; they took care all of the planning for me, and presented me with ideas, designers, models and all other details needed for the event to run smoothly. *Sarah Balanoff*

Pop N Shop Events is a great organization! You guys were very helpful for me as a new fashion designer to get out there and promote my clothing line. Not to mention the stunning pictures you took! It was a pleasure to be part of a show this past Feb 2016. I think your talent and vision is helping many other creative businesses to grow and promote themselves in a very professional way. Thank you!
